Your decision of 25.07.2013

Dear Dr. Sprave,

With reference to your decision of 25.07.2013, I would like to state as follows:

I fail to see how any substantiated consideration of the criminal complaint can be made in an objective sense. Nor is it possible to discern any corresponding effort in a subjective sense. In view of the collegial bias and the instructional duty of the Public Prosecutor's Office, I am aware of its significance, and will therefore refrain from any further applications.

With kind regards
